### ARBEITSVORHABEN

## Frankreich im Krieg, 1870-1962

I am working on a book with the provisional title of "France at War: The Impact of War on French History and Society, 1870(1962)".

The book will consist of five essays dealing respectively with:

- \* The Franco-Prussian War, 1870(71
- The Wars of Colonial Conquest (Algeria, Morocco, West Africa, Madagascar, Indochina) during the period 1870(1914, plus a short introduction about Algeria (1830(1870) and an epilogue about Morocco in the 1920s
- The First World War, 1914(1918
- The Second World War, 1939(1945
- The wars of decolonialization, 1945(1962, with special reference to Indochina and Algeria

Each essay will deal with (1) the origins of the war, its causes and outcome;

(2) the collective memory of the war, including the literary and artistic imagination; (3) its importance and consequences.

I have worked on most of these subjects already for quite some time and published on aspects of them. This book of about 300 pages aims at offering a synthesis.
