ARBEITSVORHABEN

Where Every Stranger (is a Ghost). Novel

The novel interleaves five quite separate 300-page novels, alternating chapters between them (This functions as follows: if the novels are A, B, C, D, and E, the order of chapters is ABABCD, ABABCD, ABABCD, ABABCD, ABABCD, ABABCD, EEEEE.). The five novels take place in different locations in space and time, from the 1st century to the 22nd, and from ancient Rome to deep space exploration. Gradually the books begin to interweave and come together in a single time and space. The connecting theme is the attempt to tame human violence.
